**Section 2  
Local Area 911 Implementation**

List all individual local areas covered by this report (e.g., Lee County, Virginia):

Coal County, OK  
Garvin County, OK  
Murray County, OK  
Wagoner County, OK

(a) For each area listed above, identify the emergency response point to which 911 calls will be routed.

The portion of Wagoner County that TDS TELECOM serves has the emergency response point for Wagoner County is Rogers County 911 system.

The portion of Coal, Garvin, and Murray County that TDS TELECOM serves does not have a 911 system, however, for emergency situations, have access to seven-digit dialing to their respective Sheriff departments.

(b) For each area listed above, provide details of the carrier's progress in completing translation and other work necessary to route 911 calls to the identified emergency response point.

The translation for Wagoner County is completed and customers are able to use the abbreviated dialing pattern of 911.

For Coal, Garvin, and Murray County, TDS TELECOM is reviewing any local options and determining appropriate local contacts to implement an abbreviated emergency dialing system.

(c) For each area listed above, provide the date or projected date that transition to the 911 abbreviated dialing code will be completed.

September 11, 2002.

**Section 3**  
**911 Implementation Problems**

(a) Describe any problems the reporting carrier has encountered in identifying 911 number call routing points. Describe any other operational problems carrier has experienced during the initial transition stages.

At this time, TDS TELECOM has not experienced any problems.

(b) Where the reporting carrier has experienced 911 implementation problems, describe any efforts the carrier has made to coordinate with public safety agencies and state and local authorities.
